whether it represents proprietary, spiritual, aesthetic, or charitable causes.[4]

So it should be as respects valleys, alpine meadows, rivers, lakes, estuaries, beaches, ridges, groves of trees, swampland, or even air that feels the destructive pressures of modern technology and modern life. The river, for example, is the living symbol of all the life it sustains or nourishes—fish, aquatic insects, water ouzels, otter, fisher, deer, elk, bear, and all other animals, including man, who are dependent on it or who enjoy it for its sight, its sound, or its life. The river as plaintiff speaks for the ecological unit of life that is part of it. Those people who have a meaningful relation to that body of water—whether it be a fisherman, a canoeist, a zoologist, or a logger—must be able to speak for the values which the river represents and which are threatened with destruction.

I do not know Mineral King. I have never seen it nor traveled it, though I have seen articles describing its proposed "development" [5] notably Hano, Protectionists vs. recreationists—The Battle of Mineral King,

[4] Early jurists considered the conventional corporation to be a highly artificial entity. Lord Coke opined that a corporation's creation "rests only in intendment and consideration of the law." *Case of Sutton's Hospital,* 77 Eng. Rep. 937, 973 (K. B. 1612). Mr. Chief Justice Marshall added that the device is "an artificial being, invisible, intangible, and existing only in contemplation of law." *Trustees of Dartmouth College* v. *Woodward,* 4 Wheat. 518, 636 (1819). Today, suits in the names of corporations are taken for granted.

[5] Although in the past Mineral King Valley has annually supplied about 70,000 visitor-days of simpler and more rustic forms of recreation—hiking, camping, and skiing (without lifts)—the Forest Service in 1949 and again in 1965 invited developers to submit proposals to "improve" the Valley for resort use. Walt Disney Productions won the competition and transformed the Service's idea into a mammoth project 10 times its originally proposed dimensions. For example,
